

Making the Difference for Disadvantaged Pupils

South Central Teaching School Hub is delighted to partner with **The HISP Research School** to offer this programme to school leaders across Dorset, Bournemouth, Christchurch and Poole.

Making the Difference for Disadvantaged Pupils is one of the Education Endowment Foundation's core programmes. This programme is designed to support school leaders in making evidence informed decisions regarding how best to support their disadvantaged pupils. Every school, their staff and their pupils, have been impacted in some way by Covid-19, and whilst schools have managed the crisis with characteristic care, determination and resilience, the disruption to learning will mean that many pupils will have fallen behind.

Participants in this programme will be supported to:

- Use a tiered approach for reviewing their whole-school Pupil Premium Strategy that meets the needs of all learners
- Accurately identify key priorities within teaching & learning, targeted support and whole school strategies to tackle educational disadvantage in their context
- Apply the principles of effective implementation to embed and sustain the processes, practices and programmes in their strategy
- Monitor and evaluate the impact of their strategy to adapt / sustain approaches according to pupil needs

Programme Details:

- 9 x 1 hour online webinars
- Actions by the school leaders attending the course in-between the sessions
- Follow-on support

The Programme modules are:

1. Introduction and pre-tasks
