

Evidence Informed CPD

Meols Cop Research School invites you to join our evidence informed CPD. Using the latest guidance from the EEF guidance reports, these sessions give practical guidance on using the evidence in your own school. All webinars will be recorded and copies will be available for delegates to use after the session

Evidence informed approaches to improving secondary science

A full day training programme exploring the recommendations in the Improving Secondary Science Guidance Report. This report has been created by the EEF using robust, valid evidence from educational studies to create 7 recommendations Science teachers can utilise in their lessons to maximise successful learning.

1st July

Delegate rate: £95
